

SUMMER WORK

Preparation for 5th Grade

My recommendations for summer work are included in the following list. I suggest working at least 1-2 days per week this summer in order to avoid the “summer slide” and to be best prepared for 5th grade in September. The programs below will give you immediate feedback so you can recognize those topics/skills you have mastered and those you may need to work on. First and foremost, be sure to remain dedicated to your

faith! I hope you all have a happy, healthy, and blessed summer!- Mrs. Lizewski
